What you need to do

After showing a label indicating the origin of the image, a face will be briefly presented on the screen. After each image, you will be asked to **rate these faces on the following**:

- **Attractiveness**: To what extent do **you personally** find the person **attractive** (how drawn are you to this person). While this dimension can often be aligned with the previous ones, we can also sometimes a face not necessarily "conventionally" beautiful and yet very attractive (and vice versa).
- **Beauty**: To what extent do you think the face is "objectively" **good-looking** (the degree to which the face is aesthetically appealing).
- **Trustworthiness**: To what extent do you find this person **trustworthy** (reliable, honest, responsible, etc.).

Note that we are interested in your **first impression**, so please respond according to your gut feelings.

Press start once you are ready.
